JAWHARA AL-AHBAR FOR CONTRACTING

# ABOUT OUR COMPANY

## Welcome to JAWHARA AL-AHBAR FOR CONTRACTING

JAC was founded on the principle that every project deserves a diverse team to execute it. We are dedicated to ensuring that our customers have the opportunity to build with a team that has their eye on the same end goal, but with a different perspective.

JAC has created long-standing relationships with contractors, manufacturers, and various agencies and associations to ensure that we can do our job well. We've developed these relationships through hard work, mutual respect and earned trust.

JAC has established a name to reckon with in the contracting industry. JAC has attained the clients' confidence in the company's ability to provide world class quality technical and management solutions. JAC has experience in handling the requirements and meeting the expectations of the Kingdom's key industrial sectors such as petrochemicals, oil & gas, fertilizers, power industries and refineries. While maintaining the flexibility to modify and adapt with the customers' specific requisites, the overall quality management initiative is attuned to the needs of the industry

### Our Vision

To provide quality services that exceeds the expectations of our esteemed customers.

### Our Mission

To supply high-quality Construction products to the building industry and maintenance market at competitive prices and render honest, friendly, and helpful service to customers.

## HSE Policy

JAC Team believes that its strategic future success begins with being responsible with Human and Environment and to provide resources for their protection and continual improvement.

*Toekom Team is committed to,*

- Make its Practices, worksite, and service safe for health and to ensure the least possible impact on the environment.
- Create safe working conditions and continually improve environmental protection and operational performance to reduce risks on Health, Safety and Environment [HSE].

*To meet our commitment, we shall*

- Proper safety Training prior to mobilize in site.
- Health of our employee's regular checkup and Medical facility both in site and outside Insurance cards been issued. And Toekoms set a good food program to the employees
- Work place Order. Housekeeping and proper order to place the raw material and tools and tackles and Scrap materials.
- HSE reward functions will carried out to motivate workers.

# OUR SERVICES

## Infrastructure Works

Infrastructure works involve the planning, Storm Watering, Sewage Watering, and maintenance of essential systems and structures that support communities and industries.

## Dewatering and Sheetpile Work

Our services include wellpoint and deep well dewatering systems, customized sheetpile designs, and robust earth retention solutions.

## Dewatering Accessories and Services

We provide a comprehensive range of dewatering accessories and services to meet diverse project needs. Our offerings include high-quality wellpoint systems, pumps, hoses, fittings, and filtration units.

## Material Supply

We offer a wide range of high-quality materials to support construction and infrastructure projects. Our inventory includes aggregates, sand, gravel, concrete, steel, and other essential building materials.

## Equipment and Vehicle Rental

Our equipment and vehicle rental services provide reliable, well-maintained machinery to meet the demands of your projects.

# Infrastructure Works

To be a leader in infrastructure development, driving progress and creating lasting value for communities and industries worldwide.

Typically, dewatering requires the use of pumping from rim ditches, trenches or well points and is usually completed prior to and during excavation. The water is then treated to remove contaminants before discharge to land, surface water or storm sewers

## Our Expertise

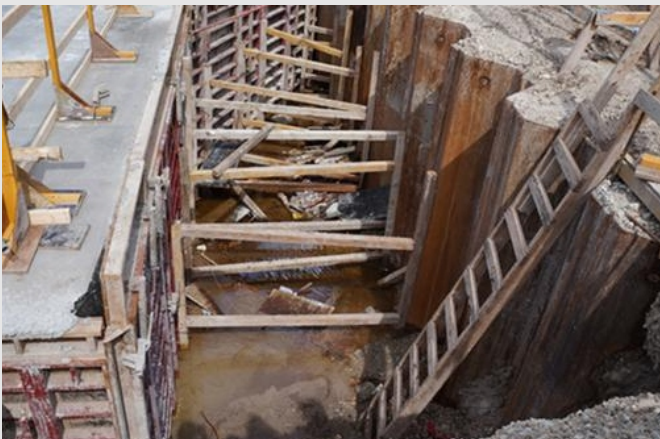

Our infrastructure services span across a wide range of sectors

## ▶ Storm Watering

We offer specialized storm water management solutions to effectively control and redirect surface water during construction and infrastructure projects. Our services include designing and implementing drainage systems, temporary water diversion, and flood prevention strategies. With our expertise and advanced equipment, we ensure site safety and environmental compliance.

## ▶ Sewage Watering

Our sewage water management services are designed to handle wastewater efficiently and safely. We provide solutions for sewage bypass pumping, treatment, and disposal to support infrastructure and construction projects. With advanced equipment and a commitment to environmental standards, we ensure seamless operations and compliance with regulations.

# Dewatering & Sheetpiling

We are a leading provider of specialized dewatering and sheetpiling services, committed to delivering innovative, cost-effective, and reliable solutions for construction and infrastructure projects. With a wealth of expertise and a focus on excellence, we ensure every project is executed with precision and professionalism.

## ► Dewatering

De-watering is one of the important processes if the construction is involved in area where the ground water level is high or in a riverbed. With our high-end equipment we make sure that the water is removed from the prescribed area by controlling the pore pressure in the soil and avoid any damage that could be consequently caused to the structure. We use submersible de-watering pumps, centrifugal pumps and likewise.

# ► Sheetpiling

Once dewatered the ground needs a strong support either permanent or temporary. With the use of interlocking steel sheet piles we can create a continuous wall. This helps to hold the soil or water from seeping into the area. This process is mainly used in deep excavation

# Dewatering Accessories & Services

At JAC, we specialize in providing comprehensive dewatering solutions and accessories to support construction, mining, and infrastructure projects. With years of expertise and a commitment to excellence, we deliver reliable products and services that ensure efficient water management and a stable work environment.

## Our Offerings

**Dewatering Pumps:** High-performance pumps designed for groundwater and surface water control in challenging conditions.

**Pipes and Fittings:** Durable and corrosion-resistant pipes, hoses, and fittings to facilitate efficient water flow.

**Wellpoint Systems:** Complete systems for shallow and deep dewatering, including wellpoints, riser pipes, and headers.

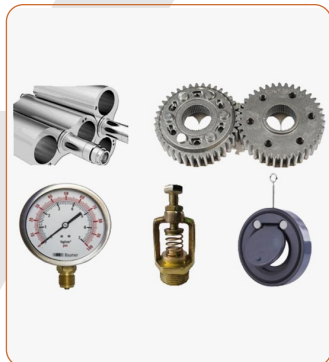

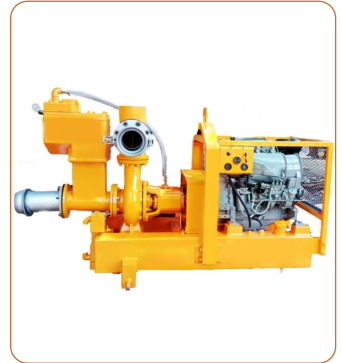

**Control Valves and Accessories:** Precision-engineered valves, gauges, and couplings for effective system control and operation.

**Geotextiles and Filters:** Specialized materials to enhance soil stability and prevent clogging in dewatering systems

**Spare Parts and Consumables:** A full range of spare parts to keep your dewatering equipment running at peak efficiency.

# Accessories

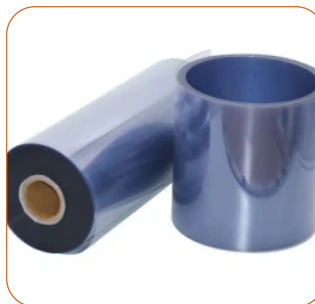

# Material Supply

At JAC, we are a trusted provider of high-quality materials that cater to the diverse needs of Dewatering and Sheetpiling & Construction projects. With a commitment to excellence and reliability, we ensure our clients receive the right materials to bring their visions to life.

## ▶ LIFTING ACCESSORIES

## ▶ POLYTHENE SHEET & TARPAULIN SHEET

## ▶ SAFETY HELMET & FACIAL PROTECTION

## ▶ SAFETY VEST & JACKET

## ▶ SAFETY GLOVES & SHOES

## ▶ STONES

# Equipment & Vehicle Rental

**Flexible Rental Options:** Whether you need equipment for a day, a week, or an extended project, we offer short-term and long-term rental plans tailored to your needs.

**On-Site Assistance:** Our experienced technicians are available for on-site setup and operational support when required.

## ► Light Lifting Equipment Rental

## ► Transportation Equipment Rental

- Bus (AC/Non-AC)
- Pick Up
- Hi Ace
- Coaster
- Flat Bed Trailers
- Low Bed Trailers Boom Trucks
- Dump Trucks Water Tankers
- Fuel Tankers
- Vacuum Tankers

## ► Power Equipment Rental

Air Compressor

Welding Machines

Power Generator

## ► Construction Equipment Rental

Bulldozer

Road Roller

Wheel Skid Loader

Grader
